## ***What is Sequestration?***

Sequestration, sometimes called the sequester, is a process that automatically cuts the federal budget across most departments and agencies.

Congress included the threat of sequestration in the [Budget Control Act of 2011](#) as a way to encourage compromise on deficit reduction efforts.

Congress couldn't agree on a budget by the deadline set in the Budget Control Act, so mandatory budget cuts were scheduled to go into effect on January 2, 2013.

Congress stopped the cuts from happening by passing the [American Taxpayer Relief Act](#) on January 2. This law pushed the budget cuts back until March 1, 2013.

Since Congress did not agree on a budget to reduce the deficit by March 1, sequestration has begun and \$85 billion in spending cuts are currently going into effect.

These reports give detailed information about the amount that programs may be cut and which programs are exempt from sequestration:

- [White House Office of Management and Budget Sequestration Reports to the President and Congress](#)
  - [Congressional Budget Office Report on Estimated Impact of Automatic Budget Enforcement Procedures Specified in the Budget Control Act](#)
  - [Congressional Research Service Report on Budget “Sequestration” and Selected Program Exemptions and Special Rules”](#) (PDF)

Please review each department’s General Grant and Funding Overview. These overviews are the key web pages on each departmental website dedicated to the agency’s funding opportunities. Check back often to note the department updates and use these sources to assist you in your planning.

## **USDA posts rural funding guide for local governments**

The U.S. Department of Agriculture (USDA) recently posted a useful guide outlining federal funding programs available to support rural communities.

[Federal Resources for Sustainable Rural Communities](#) (PDF 44p 6MB) is a guide to programs from the Partnership for Sustainable Communities and the U.S. Department of Agriculture (USDA) that rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It is a collaborative effort among USDA, the Department of Housing and Urban Development, the Department of Transportation and the Environmental Protection Agency.

The guide has key information on funding and technical assistance opportunities available from the four agencies, as well as examples of how rural communities across the country have benefitted from federal resources. [The resource guide can be accessed here.](#)

## Business and Cooperative Programs

### Description

The RBOG program promotes sustainable economic development in rural communities with exceptional needs through provision of training and technical assistance for business development, entrepreneurs, and economic development officials and to assist with economic development planning. Rural Development is participating in the Investing in Manufacturing Communities Partnership (IMCP), which is a new Administration-wide initiative that will accelerate the resurgence of manufacturing and help cultivate an environment for businesses to create well-paying manufacturing jobs in regions across the country. The IMCP is designed to reward communities that demonstrate best practices in attracting and expanding manufacturing by using long-term planning that integrates targeted investments in workforce training, infrastructure, research, and other key assets. The IMCP is being initiated in FY 2013 as EDA, USDA, SBA and EPA each provide funding for regional implementation strategy grants. The agencies will allocate funding through existing programs to advance this critical national priority. Strategies developed by these grants, as well as existing strategies and those otherwise under development, will enhance regions' efforts to compete for future proposed large scale IMCP grants (10 to 100 times the size of the implementation strategy grants). These grants will be given to communities with the best strategies for attracting private investment. IMCP partner agencies will coordinate funding across agencies in order to leverage complementary activities while also preventing duplication of efforts. Specific information on how applicants can participate in IMCP can be found at Section V.10 of this Notice.

## **Corporation for National and Community Service**

### **General Program Overview**

AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs. Grantees use the funding to support AmeriCorps members for intensive service in their community. AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match is required.

New Funding Opportunities

AmeriCorps provides support to nonprofits, faith-based and community organizations, and public agencies committed to meeting critical needs in education, public safety, health, and the environment.

Grantees and sponsoring organizations are responsible for recruiting, selecting, and managing members. Some grantees also may provide funding to sub-grantees. To learn which grantees may offer this kind of program support to your organization, please contact your **State Service Commission**.

In general, AmeriCorps NCCC and AmeriCorps VISTA do not provide operating grants of this type. Instead they provide access to AmeriCorps NCCC and AmeriCorps VISTA members to work on projects addressing critical community needs.

### Resources

#### Procurement Technical Assistance Centers (PTACs) (P)

Procurement Technical Assistance Centers (PTACs) are charged with assisting businesses in learning how to do business with federal, state, and local governments. PTACs are a local resource available at no or nominal cost that can provide assistance to business firms in marketing their products and services. They offer training to businesses on how to research and bid on contracts.

## **Department of Education**

### **Grant Programs Overview at the Department of Education**

The Department of Education produces a forecast of funding opportunities under the Department's discretionary grant programs for Fiscal Year 2011. It is anticipated that this forecast will be updated in November. This tool can be used to determine the general schedule and variety of programs offered by the Department on an annual basis.

# FORECAST OF FUNDING OPPORTUNITIES UNDER THE DEPARTMENT OF EDUCATION DISCRETIONARY GRANT PROGRAMS FOR FISCAL YEAR (FY) 2011

(As of September 22, 2011)

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date.

**Note:** This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of November in a fiscal year and continuing through the following July.

**Note on printing:** For best results, print this document in landscape orientation.

## ORGANIZATION OF THIS DOCUMENT

We have assigned to each principal office a separate chart as follows:

[Chart 1 - Office of English Language Acquisition, Language Enhancement, and Academic Achievement for Limited English Proficient Students.](#)

[Chart 2 - Institute of Education Sciences.](#)

[Chart 3 - Office of Elementary and Secondary Education.](#)

[Chart 4 - Office of Safe and Drug Free Schools.](#)

[Chart 5 - Office of Innovation and Improvement.](#)

[Chart 6 - Office of Postsecondary Education](#) (Link to IPLE Chart)

[Chart 7 - Office of Special Education and Rehabilitative Services](#) (Links to NDRR, SRF, RSA charts).

[Chart 8 - Office of Vocational and Adult Education.](#)

[Chart 9 - Office of the Deputy Secretary - ODS.](#)

## DATES

Here's how you can tell whether we've already published an application notice for a particular program or competition in the Federal Register and whether the dates we list in this Forecast of Funding Opportunities are actual or estimates:

If we have published the application notice, we will list the Federal Register (FR) volume and page number (e.g., 65 FR 53402) after the date in column two. The other dates for that program or competition (columns four and five) are actual (as opposed to estimated) dates.

If we do not follow the date in column two with an FR citation, it means that we have yet to publish the application notice, and the dates (columns two, four, and five) are estimates only. The actual dates will appear in the official application notice for that program or competition in the Federal Register.

**Date of Application Notice.** In column two of the charts, we list the actual or estimated date for publication of the application notice for a given program or competition.

**Link to Notice.** In column three of the charts, after to publication in the Federal Register, we will provide a link to the application notice for a given program or competition.

### **Additional Information on Eligibility:**

1. Eligible Applicants: High-need LEAs; consortia of high-need LEAs; and partnerships of high-need LEAs, nonprofit organizations (which may be community- or faith-based organizations), and institutions of higher education. ``High-need LEA" (as defined in section 2102(3) of the ESEA) means an LEA-- (a)(1) That serves not fewer than 10,000 children from families with incomes below the poverty line, or (2) for which not less than 20 percent of the children served by the LEA are from families with incomes below the poverty line; and (b) For which there is (1) a high percentage of teachers not teaching in the academic subjects or grade levels the teachers were trained to teach, or (2) a high percentage of teachers with emergency, provisional, or temporary certification or licensing. So that the Department can confirm the eligibility of the LEAs that applicants propose to serve, applicants must include information in their applications that demonstrates that each participating LEA in the project is a high-need LEA. This information must be based on the most recent available data on the number of children that the LEA serves from families with incomes below the poverty line. When presenting evidence to support that each participating LEA is a high-need LEA, an applicant must consider the following: The Department is not aware of any reliable data that are available to LEAs--other than data periodically gathered by the U.S. Census Bureau--that would show that an LEA serves the required number or percentage of children (individuals ages 5 through 17) from families below the poverty line (as defined in section 9101(33) of the ESEA).

**U.S. Department of Energy**

[Home](#)

## GRANTS & CONTRACTS

Much of the work of the Department of Energy's [Office of Science](#) (SC) is supported through grants and contractual vehicles. This work is processed through the Office of Science [Grants and Contracts Division](#) (GCD) which serves as the principal acquisition, financial assistance (grants and cooperative agreements) and contract/grant management advisor to the Director of Science. The GCD provides independent analyses, advice and recommendations on procurement and assistance actions initiated by SC; identifies problem areas, opportunities and management issues and makes recommendations; serves as SC focal point in developing positions and responses to proposed Federal and DOE procurement and assistance regulations and business management policies and procedures; provides advice and guidance and serves as the SC focal point with DOE field offices, laboratories, universities, contractors, grantees and other Government agencies on SC policies and strategies with respect to acquisition, financial assistance and contract/grant management issues.

The Department's [Office of Nuclear Energy](#) re-established, in FY 1998, a competitive peer-reviewed program to provide grants allowing nuclear engineering faculty and students to conduct innovative research in nuclear engineering and related areas. The awards run from one to three years and are granted in eight separate technical areas related to nuclear engineering: reactor physics, reactor engineering, reactor materials, radiological engineering, radioactive waste management, applied radiation science, nuclear safety and risk analysis, and innovative technologies for next generation reactors, space power and propulsion, or radiation sources. This type of research is vital to the academic community to help promote excellence in nuclear engineering and provide resolution to issues confronting nuclear engineering in general.

The [Office of Nuclear Energy](#) provides tuition, stipends, and practicum to outstanding graduate students studying nuclear engineering and health physics and undergraduate scholarships and practicum to students pursuing a nuclear engineering course of study to ensure that our country will have an adequate supply of trained nuclear scientists and engineers. As an element of this activity, the University Partnership Program pairs minority institutions with institutions offering a nuclear engineering degree to enable more minorities to enter the field of nuclear engineering.

Sequestration Letter

**The Deputy Secretary of Energy**  
Washington, DC 20585

March 4, 2013

Dear Contractor or Financial Assistance Recipient:

As you are likely aware, due to the failure of Congress to reach a deal on balanced deficit reduction to avoid sequestration, the President on Friday was required by law to issue a sequestration order canceling approximately \$85 billion in budgetary resources across the Federal government for the remainder of the Federal fiscal year. As partners with the Department of Energy, we are writing to provide you with timely and clear information about how these unfortunate budget cuts affect us, and in turn what it means for funds provided to our contractors and financial assistance recipients.

At this time, the Department of Energy is taking every step to mitigate the effects of these cuts. However, the Department may nevertheless need to take certain actions with regard to particular contracts and assistance agreements in order to comply with the required budget cuts.

For procurement contracts, the Department of Energy may decide not to exercise an option or may need to negotiate lower prices or other terms via a bilateral modification to meet the constraints imposed by sequestration. The Department may also determine it necessary to stop or suspend work, reduce the scope of work, or partially or completely terminate your contract for convenience. Additionally, planned contract actions for new work may be re-scoped, delayed, or canceled depending on the nature of the work and the degree to which it directly supports the agency's mission goals.

For financial assistance agreements, the Department may decide not to issue a continuation award – including not awarding incremental funds on multi-year awards – and may require negotiation of a reduction in the scope of your award.

To the extent that your contract or financial assistance agreement is affected due to these budget cuts, you will be contacted by the appropriate Contracting Officer with additional details.

Thank you for your continued partnership with the Department of Energy, and for your cooperation as we work together to manage these unfortunate circumstances.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Daniel B. Poneman", is positioned above the printed name.

**Description**

The purpose of this Notice is to provide potential applicants advance notice that the The Fuel Cell Technologies Office (FCTO), on behalf of the DOE Office of Energy Efficiency and Renewable Energy (EERE), intends to issue a FOA titled Fuel Cell Hybrid Electric Medium Duty Trucks, Roof-top Backup Power, and Advanced Hydrogen Refueling Components. The Notice of Intent is posted on the EERE eXCHANGE website at <https://eere-exchange.energy.gov>. **NO APPLICATIONS WILL BE ACCEPTED THROUGH THIS NOTICE.** Please do not submit questions or respond to this Notice of Intent. Prospective applicants to the FOA should begin developing partnerships, formulating ideas, and gathering data in anticipation of the issuance of this FOA. It is anticipated that this FOA will be posted to EERE Exchange in May 2013. The applicant must first register and create an account on the EERE eXCHANGE website. A User Guide for the EERE eXCHANGE can be found on the EERE website <http://eere.energy.gov/financing/exchangeExchange/Manuals.aspx> after logging in to the system.

**Description**

The Department of Energy (DOE) seeks input from the public related to the manufacturing and supply chain for both land-based and offshore wind turbines. Improvements in manufacturing processes could significantly improve the viability of next generation turbines and reduce the levelized cost of energy (LCOE) for these technologies as well as increase U.S. competitiveness in clean energy technologies. DOE seeks to improve these areas and is requesting information to identify the most promising investment opportunities based on industry needs. The information collected by this RFI will be used for market baseline information and internal DOE planning. Interested parties to this RFI might include, but are not limited to original equipment manufacturers (OEMs), developers, state development agencies, and suppliers in the Wind markets. The sole purpose of this Request for Information (RFI) is to gain public input regarding manufacturing challenges and opportunities for land-based and offshore wind technologies. The full Request for Information RFI is posted on the EERE Exchange website at <https://eere-exchange.energy.gov>. Information on where to submit questions regarding the content of the RFI and where to submit questions regarding the EERE Exchange system can also be found on the EERE Exchange website.

**Description**

The Advanced Scientific Computing Research (ASCR) program of the Office of Science (SC), U.S. Department of Energy (DOE), hereby invites applications for basic research in novel mathematical and statistical methods, models, and tools for the representation, analysis, and understanding of DOE data-centric science at scale. In particular, this FOA is seeking long-term research that will impact DOE data-centric science challenges related to orders of magnitude improvement in modeling and simulation capabilities on next-generation computer architectures and next-generation science facilities producing dramatic increases in data velocity, volume, and complexity. A companion Program Announcement to DOE Laboratories (LAB 13-918) will be posted on the SC Grants and Contracts web site at: <http://www.science.doe.gov/grants> The full text of the Funding Opportunity Announcement (FOA) is located on FedConnect. ### **Additional Information on Eligibility:**

In selecting eligible applicants to receive grants under this FOA, priority will be given to entities that have experience in providing shelter and services to runaway, homeless and street youth as required by the RHY Act. Faith-based and community organizations that meet eligibility requirements are eligible to receive awards under this funding opportunity announcement. Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

### **Agency Name**

Administration for Children & Families - ACYF/FYSB

### **Description**

The Administration for Children and Families' (ACF), Administration on Children, Youth and Families' (ACYF), Family and Youth Services Bureau (FYSB) will award funding for the Basic Center Program (BCP). The purpose of the BCP is to provide an alternative for runaway and homeless youth who might otherwise end up with law enforcement or in the child welfare, mental health, or juvenile justice systems. The BCP works to establish or strengthen community-based programs that meet the immediate needs of runaway and homeless youth and their families. The programs provide youth up to age 18 with emergency shelter, food, clothing, counseling and referrals for health care. Most basic centers can provide 21 days of shelter for up to 20 youth at a time. There are exceptions for jurisdictions that have different standards for licensing. Basic centers seek to reunite young people with their families, whenever possible, or to locate appropriate alternative placements.

Cost Sharing or Matching Requirement:	No

### Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

### Additional Information on Eligibility:

The intent of this initiative is to engage with a wide variety of innovators. Interested parties of all types that meet the eligibility requirements specified in this section and have developed innovations that will drive significant improvement in population health, quality of care, and total cost of care and who can create a clear pathway to an alternate payment model based on their innovation are welcome to apply. Examples of the types of organizations expected to apply are: provider groups, health systems, payers and other private sector organizations, faith-based organizations, state and/or local governments, academic institutions, research organizations, public-private partnerships, and for-profit organizations. In addition, certain organizations may apply as conveners that assemble and coordinate the efforts of a group of participants. Unsuccessful applicants from prior CMS funding competitions are eligible to apply. Technology developers, including software designers and others creating solutions for health care providers, are welcome to apply. However, any such technology model needs to reflect the actual use, not the development, of a product in a broader service delivery or payment model. Applicants that develop open source technology or software that are placed in the public domain will be given preference.

**Agency Name**

Centers for Medicare & Medicaid Services

**Description**

This is the second round of an initiative that will fund applicants who propose new payment and service delivery models that will provide better health, better health care, and lower costs through improved quality for Medicare, Medicaid, and Children's Health Insurance Program (CHIP) enrollees. Applicants will propose new service delivery models along with the design of corresponding new payment models. If their applications are funded, awardees will be required to implement the service delivery models at the start of the three-year cooperative agreement period and submit a fully developed new Medicare, Medicaid, or CHIP payment model by the end of the cooperative agreement period. The Centers for Medicare & Medicaid Services (CMS), at its discretion and consistent with the requirements of Section 1115A of the Social Security Act, may further develop one or more of these payment and service delivery models and open them to participation through a subsequent solicitation. Successful applicants will demonstrate that they can implement a model that improves quality of care and reduces cost within the first six months of the award and delivers net savings to CMS within three years.

## **Department of Homeland Security**

The Department of Homeland Security enhances the ability of states, local and tribal jurisdictions, and other regional authorities in the preparation, prevention, and response to terrorist attacks and other disasters, by distributing grant funds. Localities can use grants for planning, equipment, training and exercise needs.

Webpage can be viewed at: <http://www.dhs.gov/xopnbiz/grants/index.shtm#2>

Download these updated grant application tools and start planning your grant request now.

- [FY 2012 FP&S Grants Get Ready Guide](#). This short guide will help you kick-start your grant application. It identifies the most important elements of all the grant application questions.
- [FY 2012 FP&S Grant Self-Evaluation Sheet](#). This tool is based on the application scoring dimensions used by the peer reviewers. It can help you assess your organization's readiness to apply for a grant and help you plan your application.

### Video Resources

Two short Fire Prevention and Safety Program videos provide information that can help potential applicants.

- The [FP&S Grants video](#) gives an overview of the FP&S Grant Program, describing the purpose of the grants, eligible activities, and evaluation criteria.
- The [Community Risk Assessment video](#) describes the different types of risk assessments that applicants can use and explains how the risk assessment's information can support grant requests. Community risk assessments are critical to creating an effective fire prevention and safety project, and they are required to obtain a FP&S grant.

U.S. Department of Homeland Security  
Washington, DC 20472

Dear FEMA Grantee:

In August 2011, Congress passed the Budget Control Act of 2011 (Public Law 112-25) to limit federal spending and reduce our national debt. To enforce annual spending limits, that law requires across-the-board funding reductions to almost every federal program, project, and activity through a process called "sequestration."

As a consequence, all federal agencies, including FEMA, will have to implement steep funding cuts, beginning in the current fiscal year. Leadership throughout FEMA and the Department of Homeland Security have been working hard to determine how we might best mitigate the impact of possible sequestration budget reductions on our state, local, tribal, territorial, non-profit and private sector partners.

Nonetheless, the sequestration order issued on March 1, 2013 will result in FEMA's current Fiscal Year (FY) 2013 funding levels being reduced by approximately 5%. This will result in a reduction to FEMA's State and Local grant funding levels of approximately \$104 million.

The sequestration reductions will affect FY 2013 funding levels for all GPD grants, subject to FEMA's final FY 2013 appropriation. Sequestration will not affect grants or cooperative agreements awarded in previous fiscal years.

We recognize the hardships that sequestration is likely to cause and thank you for your cooperation as we work together to manage these unfortunate circumstances. We value the important work that you do and appreciate your dedication to the security and resilience of the Nation. As always, your thoughts, questions and concerns are welcome.

Sincerely,

David J. Kaufman  
Acting Assistant Administrator  
Grant Programs Directorate

## Federal Funding Alternative To AFG

**State Administrative Agencies (SAA)** apply for and administer Federal grants on behalf of their States, including FEMA Preparedness Grants. The SAA will work with eligible organizations to comply with the general requirements of grant programs or cooperative agreements. Contact your State's SAA to find out what

current Federal funding opportunities may be available to your organization. A listing of the SAAs and points of contact can be found at <http://www.fema.gov/library/viewRecord.do?id=6363>.

Department of Homeland Security - FEMA

**Description**

The FY 2013 TSGP is one of the Department's FY 2013 grant programs that directly support transportation infrastructure security activities. TSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration to strengthen the Nation's critical infrastructure against risks associated with potential terrorist attacks. TSGP provides funds to owners and operators of transit systems (which include intra-city bus, commuter bus, ferries, and all forms of passenger rail) to protect critical surface transportation infrastructure and the traveling public from acts of terrorism and to increase the resilience of transit infrastructure. The FY 2013 TSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. The FY 2013 TSGP supports core capabilities across the five mission areas of Prevention, Protection, Mitigation, Response, and Recovery based on allowable costs.

**Description**

The FY 2013 PSGP is one of the Department's FY 2013 grant programs that directly support maritime transportation infrastructure security activities. PSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration to strengthen the Nation's critical infrastructure against risks associated with potential terrorist attacks. The vast majority of U.S. maritime critical infrastructure is owned and/or operated by State, local, and private sector maritime industry partners. PSGP funds available to these entities are intended to improve port-wide maritime security risk management; enhance maritime domain awareness; support maritime security training and exercises; and to maintain or reestablish maritime security mitigation protocols that support port recovery and resiliency capabilities. PSGP investments must address Coast Guard identified vulnerabilities in port security and support the prevention, detection, response, and/or recovery from attacks involving improvised explosive devices (IED) and other non-conventional weapons. The FY 2013 PSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. **CFDA No.:** 14. - All of HUD programs will start with 14. \_\_\_\_

**Open Date:** July 23, 2012

**Close Date:** December 31, 2013

**Contact:** For further information on HUD's FY2013 Policy Requirements and General Section, contact the Office of Strategic Planning and Management, Grants Management Division, Department of Housing and Urban Development, 451 7th Street, SW, Room 3156, Washington, DC 20410-3000, telephone number (202) 708-0667. This is not a toll-free number. Persons with hearing or speech impairments may access this number via TTY by calling the Federal Relay Service at 800-877-8339.

**SUPPLEMENTARY INFORMATION:** To help applicants with electronic application registration and submission, HUD advises applicants to use the help features on the Dun and Bradstreet (D&B), Central Contractor Registration (CCR)/ SAM.gov, and Grants.gov websites. These sites all have User Guides and Frequently Asked Questions (FAQ) which are updated on an ongoing basis. HUD believes that early publication of this General Section is beneficial to prospective applicants by providing advance notice of the Department's Strategic Plan Goals, Policy Priorities, NOFA threshold requirements and other requirements that are applicable to individual FY2013 program NOFAs.

- Individuals looking for assistance, please note: HUD does not provide grants and/or loans directly to individuals – the funding is made available to state and local governments; public housing agencies (PHAs); nonprofit organizations including colleges and universities; Indian tribes and tribally designated housing entities (TDHEs); graduate students; public housing resident organizations; owners of federally assisted low-income housing; and for-profit professional and technical services companies, however we do have a website, which provides resource information which may be of assistance to you. Individuals may visit the [USA.gov website](#). This site allows you to complete a questionnaire; all of the questions must be answered in order to obtain an initial list of benefit results and to move on to the next sections of the Benefit Finder. Providing any additional information will further increase the accuracy of the individuals result. The website is user friendly; once the questionnaire is complete the site directs the individual to click the "View Benefit Results" tab to see a listing of programs that they may be eligible to receive.

## Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:**

Choice Neighborhoods eligible applicants are Public Housing Authorities (PHAs), local governments, tribal entities, nonprofits, and for-profit developers that apply jointly with a public entity. See Sections I.C, III.A.1, and III.C.2 for additional information related to Eligible Applicants.

**Agency Name**

Department of Housing and Urban Development

**Description**

Choice Neighborhoods Implementation Grants support the implementation of comprehensive neighborhood revitalization plans that are expected to achieve the following three core goals: 1. Housing: Replace distressed public and assisted housing with high-quality mixed-income housing that is well-managed and responsive to the needs of the surrounding neighborhood; 2. People: Improve educational outcomes and intergenerational mobility for youth with services and supports delivered directly to youth and their families; and 3. Neighborhood: Create the conditions necessary for public and private reinvestment in distressed neighborhoods to offer the kinds of amenities and assets, including safety, good schools, and commercial activity, that are important to families' choices about their community. To achieve these core goals, communities must develop and implement a comprehensive neighborhood revitalization strategy, or Transformation Plan.

**Modifications:****Self-Help Homeownership Opportunity Program (SHOP)  
Modification 2**

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	FR-5700-N-11
Opportunity Category:	Discretionary
Posted Date:	Jan 23, 2013
Creation Date:	May 21, 2013
Original Closing Date for Applications:	Jul 15, 2013 Today's posting provides information and instructions for applying for FY2013 SHOP Grant funds. The available amount of SHOP Grant funds is subject to enactment of the final HUD appropriations bill for FY2013. Because FY2013 funds have not been appropriated for this program, the availability of any such funding is contingent upon future Congressional action. After the FY13 budget passes, HUD will issue a technical correction that will update and finalize the application deadline and total funds available. This technical correction may also extend the SHOP NOFA application deadline date, so that applicants have a minimum of ninety days after this SHOP NOFA publication date and sixty days after the technical correction publication date to submit their applications. If the program is not funded, this Notice will be withdrawn.
Current Closing Date for Applications:	Jul 15, 2013 Today's modification clarifies the synopsis page, to include the Estimated Total Program funding

of \$12,793,869 in Fiscal Year 2013 SHOP Grant funds, the due date remains July 15, 2013.

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

### **Additional Information on Eligibility:**

An applicant must be a public or private non-profit organization, or a consortium of public or private non-profit organizations, that has the capacity and experience to provide or facilitate self-help homeownership housing opportunities on a national or regional basis. Individuals and local non-profit organizations are not eligible applicants and cannot apply for funding under this competitive SHOP NOFA.

### **Agency Name**

Department of Housing and Urban Development

### **Description**

SHOP Grant funds are awarded to national and regional non-profit organizations and consortia to facilitate and encourage innovative homeownership opportunities on a national, geographically diverse basis through the provision of self-help homeownership housing programs. SHOP Grantees must use a significant amount of SHOP Grant funds in at least two states. SHOP Grant funds must be used for land acquisition, infrastructure improvements, and for reasonable and necessary planning,

administration and management costs (not to exceed 20 percent). The construction or rehabilitation costs of each SHOP unit must be funded with other leveraged public and private funds. The average SHOP Grant expenditure for the combined costs of land acquisition and infrastructure improvements must not exceed \$15,000 per SHOP unit. Eligible low-income homebuyers must contribute a significant amount of sweat equity towards the development of the SHOP units. Volunteer labor is also required. Assisted units must be decent, safe, and sanitary non-luxury dwellings that comply with state and local codes, ordinances, and zoning requirements, and with the SHOP requirements (including requirements for energy-efficiency and water conservation). The SHOP units must be sold to homebuyers at prices below the prevailing market price. A homebuyer's sweat equity contribution must not be mortgaged or otherwise restricted upon future sale of the SHOP unit. SHOP Grantees may award SHOP Grant funds to local non-profit affiliate organizations to carry out the Grantee's SHOP program. These affiliate organizations must be located within the Grantee's service area.

### Summary of Available Grants and FY 2012 Grant Program Guidelines

Application forms and guidelines for the current fiscal year are made available approximately 90 days before the grant deadline. Until that time, applications and guidelines from the previous year are available for your reference, but you must use the current fiscal year application when you apply.

The screenshot shows the IMLS website's 'Grant Applicants' section. At the top is the IMLS logo and a site search bar. Below the logo is a navigation menu with links: Home, Press Room, Related Links, FOIA, RSS, and Contact Us. A secondary menu contains: Grant Applicants, Grant Reviewers, Grant Recipients, State Programs, Research, Resources, News, and About Us. The main heading is 'Grant Applicants'. On the left, under 'Available Grants', are links for 'By Grant Name', 'By Institution Type', and 'By Project Type'. Below these are links for 'Eligibility Criteria', 'Sample Applications', 'Grants.gov', 'Program Guidelines', 'After You Apply', 'Outcome Based Evaluation'. The main content area is titled 'View Available Grants' and contains three selection boxes: 'Grant Name' (listing 21st Century Museum Professionals, American Heritage Preservation Grants, Connecting to Collections Statewide Implementation, Conservation Assessment Program, and Conservation Project Support), 'Project Type' (listing Formal Education, Professional Development/Continuing Education, Conservation, Community Engagement, and Informal Learning), and 'Institution' (listing Historical Society, Professional Association, Regional Organization, State or Local Government, and Public or Private Non-profit Institutions of Higher Education). At the bottom, there is a 'Sort options' section with a dropdown menu set to 'Grant Name' and a 'go' button.

#### **Additional Information on Eligibility:**

##### **Agency Name**

Fish and Wildlife Service

##### **Description**

The USFWS uses a science-based, adaptive framework for setting and achieving cross-program conservation objectives that strategically address the problems fish and wildlife will face in the future. This framework, called Strategic Habitat Conservation, is based on the principles of adaptive management and uses population and habitat data, ecological models, and focused monitoring and assessment efforts to develop and implement strategies that result in measurable fish and wildlife population

outcomes. In addition, by leveraging resources and strategically targeting science to inform conservation decisions and actions, Landscape Conservation Cooperatives (LCC) are being established to create a network of partners working in unison to ensure the sustainability of America's land, water, wildlife and cultural resources. Financial assistance will be awarded for science projects and LCC-prioritized biological planning, conservation design and adaptive management projects to include: research; inventory design and implementation; monitoring; goal and priority setting associated with efficient and effective conservation; development of implementation strategies; and projects supporting all other FWS organizational efforts, including planning, establishment maintenance, and general business operations. A determination of award instrument (grant or cooperative agreement) will be based on the level of Federal involvement. A cooperative agreement award should only be used when substantial Federal involvement is expected. Per 505 DM 2, Section 2.9 substantial involvement is expected when FWS:

- Participates and collaborates jointly with the recipient partner, volunteer, scientist, technician or other personnel, in carrying out the scope of work, training recipient personnel, or detailing Federal personnel to work on the project effort;
- Reviews and approves one stage of work before the next stage can begin;
- Reviews and approves proposed modifications or sub-grants, prior to award;
- Helps select project staff or trainees;
- Directs or redirects the work because of interrelationships with other projects;
- Has power to immediately halt an activity if detailed performance specifications are not met;
- Limits recipient discretion with respect to scope of work, organization structure, staffing, mode of operations and other management processes, coupled with close monitoring or operational involvement during performance under the award.

If indirect costs are included in budget proposal, a copy of the organization's current approved indirect cost rate agreement or pending proposal

### **Additional Information on Eligibility:**

### **Agency Name**

Bureau of Justice Assistance

### **Description**

The Bureau of Justice Statistics (BJS) just released the 2011-2012 findings from the most recent surveys of jail and prison inmates about incidences of sexual victimization.<sup>1</sup> Based on this information, 4.0 percent of state and federal prison inmates and 3.2 percent of jail inmates within the United States reported experiencing one or more incidents of sexual victimization by another inmate or facility staff in the past 12 months or since admission to the facility.<sup>2</sup> In juvenile facilities, the numbers are even more troubling. At least 17,100 adjudicated or committed youth (amounting to some 12 percent of the total population in juvenile detention facilities) reported having suffered sexual abuse within 12 months of arriving at their facility, with rates as high as 36 percent in specific facilities.<sup>3</sup> On June 20, 2012, DOJ published the Final Rule creating standards as required by the Prison Rape Elimination Act. The standards apply to adult prisons and jails, juvenile correctional facilities, police lockups, and community residential centers. The standards, which took effect on August 20, 2012, seek to prevent sexual abuse and to reduce the harm that it causes. The standards are grouped into 11 categories: prevention planning; responsive planning; training and education; screening for risk of sexual victimization and abusiveness; reporting;

official response following an inmate report; investigations; discipline; medical and mental care; data collection and review; and audits. This program is funded under the Prison Rape Elimination Act, 42 USC 15601, et seq., and the Consolidated and Further Continuing Appropriations Act, 2013, Pub. L. 113-6, 127 Stat. 198, 255. Demonstration projects funded through this solicitation will support comprehensive approaches within state, tribal, and local adult and juvenile correctional facilities to prevent, detect, and respond to incidences of sexual victimization.

### **Description**

DOJ's Strategic Plan for Fiscal Years 2012-2016 identifies as Goal II: Prevent crime, protect the rights of American People, and enforce Federal law, and as Strategic Objective 2.1: combat the threat, incidence, and prevalence of violent crime, which coincides with OJP's Strategic Goal 1: Enhance state, local, and tribal efforts to prevent and respond to violent crimes and acts of terrorism. BJA will continue support training, technical assistance, and related services dedicated to equip state, local, and tribal law enforcement officers to support specialized multiagency terrorism detection, investigation, and interdiction. The purpose of this solicitation is to select an organization(s) to continue providing these critical training and technical assistance services to law enforcement officers who face the challenges presented by the criminal extremist/terrorist threat. This program is funded through the Department of Justice, Consolidated & Further Continuing Appropriations Act, 2013 (Pub. L No 113-6, 127 Stat. 198,253.). All training, technical assistance, and related services supported under this initiative must emphasize the protection of individual privacy, civil rights, and civil liberties throughout the intelligence process whereas all materials and trainings must be ethnically and culturally accurate, and delivered in a manner that helps law enforcement officers fully understand their constitutional responsibilities.

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:**

Eligible institutions are institutions of higher education as defined in Section 102 of the Higher Education Act of 1965 (20 U.S.C. 1002) which offer programs that can be completed in not more than two years. They include public, proprietary, or other nonprofit educational institutions. Generally, such institutions of higher education include two-year and four-year colleges and universities, Historically Black Colleges and Universities, Tribally Controlled Colleges and Universities, Hispanic-serving Institutions, and Asian American and Native American Pacific Islander-serving Institutions. Educational institutions in the U.S. territories are eligible if they offer programs that can be completed in not more than two years and are accredited by an agency or association recognized by the U.S. Department of Education. However, applications from institutions not located in the 50 States, the District of Columbia, and Puerto Rico may not be eligible for the full 10 points in Section V.A.1 because workers outside of these jurisdictions cannot be certified as TAA-eligible. Eligible institutions previously funded under TAACCCT SGA/DFA PY 10-03 (Round 1) either as a single institution or through a consortium application may apply as a single institution or as a Lead or Member Institution in a consortium application under this SGA. Eligible institutions previously funded as a Lead Institution under either a single institution or consortium application through TAACCCT SGA/DFA PY 11-08 (Round 2) may not apply as a single institution or as a Lead Institution in a consortium application under this SGA, but may participate in a consortium application as a Member Institution. See Section III of the SGA for more detail.

**Agency Name**

Employment and Training Administration

**Description**

The U.S. Department of Labor (DOL or the Department) announces the availability of approximately \$474 million in grant funds to be awarded under the Trade Adjustment Assistance Community College and Career Training (TAACCCT) grant program. This solicitation announces a third round of funding under the TAACCCT grant program. The TAACCCT grant program provides eligible institutions of higher education, as defined in section 102 of the Higher Education Act of 1965 (20 U.S.C. 1002), with funds to expand and improve their ability to deliver education and career training programs that can be completed in two years or less, and are suited for workers who are eligible for training under the Trade Adjustment Assistance (TAA) for Workers Program ("TAA-eligible workers") of chapter 2 of title II of the Trade Act of 1974, 19 U.S.C.

2271-2323, as well as other adults. Eligible institutions may be located in the 50 States, the District of Columbia, Puerto Rico or the U.S. territories; however, the competitiveness of institutions in the U.S. territories for this Solicitation for Grant Applications (SGA) may be impacted by their limited opportunity to serve TAA-eligible workers. The primary intent of the TAACCCT program is to meet the educational or career training needs of workers who have lost their jobs or are threatened with job loss as a result of foreign trade by funding the expansion and improvement of education and career training programs that are suited for these individuals; however, the Department expects that a wide range of individuals will benefit from the TAACCCT program once education and training programs are developed and implemented. The Department intends to fund four-year grants to eligible institutions to develop new undergraduate education and career training program strategies or to replicate existing designs, program development methods, and/or delivery strategies that have established evidence of successful implementation. As a result of this SGA, the Department will help ensure that our nation's higher education institutions are able to help TAA-eligible workers and other adults acquire the skills, degrees, and credentials needed for high-wage, high-skill employment while also meeting the needs of employers for skilled workers.

**Grant Opportunities**

Listed are our current grant categories. If the deadline has passed, the announcement is being revised and will appear at least 90 days before the new deadline.

- **Archives Leadership Institute**  
The National Historical Publications and Records Commission seeks proposals from organizations to continue the Archives Leadership Institute.  
• Final Deadline: October 6, 2011
- **Documenting Democracy: Access to Historical Records**  
The National Historical Publications and Records Commission seeks proposals that promote the preservation and use of the nation's most valuable archival resources. Projects should expand our understanding of the American past by facilitating and enhancing access to primary source materials.  
• Final Deadline: October 6, 2011
- **Digitizing Historical Records**  
The National Historical Publications and Records Commission seeks proposals that use cost-effective methods to digitize nationally significant historical record collections and make the digital versions freely available online. Projects must make use of existing holdings of historical repositories and consist of entire collections or series. The materials should already be available to the public at the archives and described so

### **Description**

The Digital Humanities Start-Up Grants program awards relatively small grants to support the planning stages of innovative projects that promise to benefit the humanities. Proposals should be for the planning or initial stages of digital initiatives in any area of the humanities. Digital Humanities Start-Up Grants may involve • research that brings new approaches or documents best practices in the study of the digital humanities; • planning and developing prototypes of new digital tools for preserving, analyzing, and making accessible digital resources, including libraries' and museums' digital assets; • scholarship that focuses on the history, criticism, and philosophy of digital culture and its impact on society; • scholarship or studies that examine the philosophical or practical implications and impact of the use of emerging technologies in specific fields or disciplines of the humanities, or in interdisciplinary collaborations involving several fields or disciplines; • innovative uses of technology for public programming and education utilizing both traditional and new media; and • new digital modes of publication that

facilitate the dissemination of humanities scholarship in advanced academic as well as informal or formal educational settings at all academic levels. Innovation is a hallmark of this grant category, which incorporates the “high risk/high reward” paradigm often used by funding agencies in the sciences. NEH is requesting proposals for projects that take some risks in the pursuit of innovation and excellence. Digital Humanities Start-Up Grants should result in plans, prototypes, or proofs of concept for long-term digital humanities projects prior to implementation.

#### **Description**

The NEH Enduring Questions grant program supports faculty members in the teaching and development of a new course that will foster intellectual community through the study of an enduring question. This question-driven course will encourage undergraduates and teachers to grapple with a fundamental concern of human life addressed by the humanities, and to join together in a deep and sustained program of reading in order to encounter influential thinkers over the centuries and into the present day. What is an enduring question? The following list is neither prescriptive nor exhaustive but serves to illustrate. • What is good government? • Can war be just? • What is friendship? • What is evil? • Are there universals in human nature? • What are the origins of the universe? Enduring questions are questions to which no discipline, field, or profession can lay an exclusive claim. In many cases they predate the formation of the academic disciplines themselves. Enduring questions can be tackled by reflective individuals regardless of their chosen vocations, areas of expertise, or personal backgrounds. They are questions that have more than one plausible or compelling answer. They have long held interest for young people, and they allow for a special, intense dialogue across generations. The Enduring Questions grant program will help promote such dialogue in today's undergraduate environment. The course is to be developed by one or more (up to four) faculty members at a single institution, but not team taught. Enduring Questions courses must be taught from a common syllabus and must be offered during the grant period at least twice by each faculty member involved in developing the course. The grant supports the work of faculty members in designing, preparing, and assessing the new course. It may also be used for ancillary activities that enhance faculty-student intellectual community, such as visits to museums and artistic or

cultural events. An Enduring Questions course may be taught by faculty from any department or discipline in the humanities or by faculty outside the humanities (for example, astronomy, biology, economics, law, mathematics, medicine, or psychology), so long as humanities sources are central to the course.

## **National Science Foundation**

### **General Funding Overview**

The National Science Foundation funds research and education in most [fields of science and engineering](#). It does this through grants, and cooperative agreements to more than 2,000 colleges, universities, K-12 school systems, businesses, informal science organizations and other research organizations throughout the United States. The Foundation accounts for about one-fourth of federal support to academic institutions for basic research.

NSF receives approximately 40,000 proposals each year for research, education and training projects, of which approximately 11,000 are funded. In addition, the Foundation receives several thousand applications for graduate and postdoctoral fellowships.

The agency operates no laboratories itself but does support National Research Centers, user facilities, certain oceanographic vessels and Antarctic research stations. The Foundation also supports cooperative research between universities

and industry, US participation in international scientific and engineering efforts, and educational activities at every academic level.

A navigation bar includes links for Home, Funding (highlighted), Awards, Discoveries, News, Publications, Statistics, About, and FastLane. Below the navigation bar, the 'Funding' section is divided into two main columns. The left column contains a 'Find Funding' sidebar with links to 'A-Z Index of Funding Opportunities', 'Recent Funding Opportunities', 'Upcoming Due Dates', 'Advanced Funding Search', 'Interdisciplinary Research', 'How to Prepare Your Proposal', and 'About Funding'. Below this is a 'Proposals and Awards' section with links to 'Proposal and Award Policies and Procedures Guide', 'Introduction', 'Proposal Preparation and Submission', 'Grant Proposal Guide', 'Grants.gov Application Guide', 'Award and Administration Guide', 'Award Conditions', 'Other Types of Proposals', 'Merit Review', 'NSF Outreach', and 'Policy Office'. The right column features a 'Find Funding' heading, a green bar with links to 'email' and 'RSS', and a 'FUNDING OPPORTUNITY SEARCH' form. The search form includes a 'Keyword' field, a 'Search' dropdown menu with options for 'Funding Opportunities (program synopses and solicitations)' (selected) and 'Award Database (titles and abstracts of previous years' awards)', and 'Search' and 'Reset' buttons. Below the search form are links for 'Advanced Funding Search', 'OTHER WAYS TO FIND FUNDING', 'A-Z Index' (with a description: 'Index of words appearing in the titles of all funding opportunities.'), 'Special Programs' (with links for Undergraduate Students, Graduate Students, Postdoctoral Fellows, K-12 Educators, and Small Business Programs), and 'Program Areas' (with links for Crosscutting and NSF-wide, Biological Sciences, Computer & Information Science & Engineering, Cyberinfrastructure, Education and Human Resources, Engineering, Environmental Research & Education, Geosciences, Integrative Activities, International Science & Engineering, and Mathematical & Physical Sciences).

Small Business Learning Centers

Starting or growing a business? Owning a small business can be a fulfilling endeavor, but as you probably already know or are just finding out – it requires that you wear many hats. This of course leaves you with little time to take a deep dive into the many aspects of starting and growing a business. Instead, many business owners turn to search engines for answers when questions come up.

But what if you had access to a small business classroom that provided informed, accurate and always-available access to the advice and guidance you need?

Welcome to the **SBA Small Business Learning Center**.

#### Online Training and Tools for Small Business Owners

Launched in late 2012, the SBA Small Business Learning Center is an online portal that hosts a variety of self-paced online training courses, quick videos, web chats and more to help small business owners explore and learn about the many aspects of business ownership.

Content is filtered by topic, so no matter the stage of your business, or the kind of insight you need, you can quickly get answers.

For example, if you're wondering how SBA loan programs work or just need a primer in accounting or small business taxes, check out these self-paced online financing courses and short videos. Or explore tips from the pros in these archived SBA Web Chats.

Other topics covered include starting a business as a young entrepreneur, an introduction to franchising, taking your business global with exporting, marketing 101, selling to the U.S. government, and much more.

#### Get More Help Offline

And if you can't find the training or advice that you need, use the "Get Local Assistance" interactive map to find one of many small business counseling, assistance and mentoring organizations in your community.

Browse around, and let us know what you think about the SBA Small Business Learning Center!

The U.S. Small Business Administration (SBA) issues Program Announcement No. OSBDC-2014-01 (FY) to invite applications from existing SBDC recipient organization currently funded under the Small Business Development Center (SBDC) program as authorized by Section 21(a) of the Small Business Act, (15 USC Section 648); The SBDC program is the SBA's largest matching grant, funding a service delivery network to provide high quality business and economic development assistance to small businesses and nascent entrepreneurs in order to promote growth, expansion, innovation, increased productivity and management improvement. The SBDCs, in partnership with SBA's Office of Small Business Development Centers (OSBDC) and SBA District Offices, develop programs and provide business management and other services that enhance the economic development goals and objectives of SBA and their other respective state and local funding partners. The SBDC program is a broad-based system of assistance for the small business community that links the resources of Federal, state, and local governments with those of the educational community and the private sector. Although SBA is responsible for the general management and oversight of the SBDC program, a partnership exists between SBA and the

recipient organization to effectuate the delivery of assistance to the small business community.

## Department of Transportation

General Grant Program Overview

In 2011, DOT administered 14 grant programs totaling over \$417 million. In previous years, some funding for these grant programs was designated by Congress and the remainder was discretionary and awarded through a competitive process. In the FY11 budget passed in April, Congress directed that all funds were discretionary. This is expected to continue in the next fiscal year.

The screenshot shows the Federal Highway Administration (FHWA) website. The header includes the DOT logo, the text 'U.S. Department of Transportation Federal Highway Administration', and a 'STAY CONNECTED' section with social media icons and a search bar. A navigation menu contains links for ABOUT, WHAT WE DO, PROGRAMS, RESOURCES, BRIEFING ROOM, and CONTACT US. The main content area is titled '2011 Discretionary Grant Programs'. It contains two paragraphs of text explaining the grant programs and a list of links for 'Solicitation Memo', 'Previous Solicitations', and 'Previous Awards'. Below this, there is a list of 14 grant programs: Delta Region Transportation Development, Ferry Boat, Highways for LIFE, Innovative Bridge Research and Deployment, Interstate Maintenance, National Historic Covered Bridge Preservation, National Scenic Byways, Public Lands Highways, Rail Highway Crossing Hazard Elimination in High Speed Rail Corridors, Transportation, Community, and System Preservation, and Truck Parking Facilities. The footer includes the FHWA logo, contact information, and a list of links for Privacy Policy, Freedom of Information Act (FOIA), Accessibility, Web Policies & Notices, No Fear Act, and Report Waste, Fraud and Abuse.

## General Overview Funding Opportunities

USAID has working relationships with thousands of American companies and hundreds of U.S.-based private voluntary organizations. For more information on our business and procurement opportunities, please visit our [Business](#) section.

The screenshot shows the USAID Global Partnerships website. The header includes navigation links: ABOUT USAID, LOCATIONS, OUR WORK, PUBLIC AFFAIRS, CAREERS, and BUSINESS | POLICY. The main content area is titled "Opportunities for Funding" and lists several programs: American Schools and Hospitals Abroad (ASHA), Child Survival and Health Grants Program (CSHGP), Denton Program (Transportation), Development Grants Program (DGP), Development Innovations Venture (DIV), and Food for Peace. Each program has a brief description. On the right side, there is a sidebar with links for "ABOUT CFBCI", "CFBCI NEWSLETTER", and a "SEARCH" box with a "GO" button and search suggestions.

### Opportunities for Funding

**American Schools and Hospitals Abroad (ASHA)**  
The Office of American Schools and Hospitals Abroad (ASHA) provides grants to competitively selected private, non-profit universities and secondary schools, libraries, and medical centers abroad. Since the inception of the program, ASHA has assisted 237 institutions in over 70 countries, and facilitated the development and sustenance of superior libraries, schools, and medical centers, thus positively impacting the regions where these institutions are located.

**Child Survival and Health Grants Program**  
The Child Survival and Health Grants Program (CSHGP) promotes a unique and productive partnership with U.S. private voluntary and non-profit organizations and their in-country partners. The program supports effective community-based maternal and child health programs that contribute to reducing infant, child, maternal and infectious disease-related mortality and morbidity in developing countries. PVOs and their local partners provide high quality, sustainable child survival and health interventions in a variety of program settings, from the smallest, most remote communities to large, district-wide programs, partnering with community groups and district and national health authorities.

**Denton Program (Transportation)**  
The Denton Program allows private U.S. citizens and U.S. based non-governmental organizations to use space available on U.S. military cargo planes to transport humanitarian items such as clothing, food, medical and educational supplies, agricultural equipment and vehicles to countries in need. The program is jointly administered by USAID, the Department of State (DOS), and the Department of Defense (DoD). In FY 2003, over 300,000 pounds of humanitarian goods were sent to seven countries through the Denton program.

Since the Denton program is a space available program, it is impossible to predict when transportation will materialize. Therefore, no guarantees can be made regarding completion of a shipment. Although the program is active in most areas of the world, U.S. military engagement in certain places can have an impact on the space that becomes available.

**Development Grants Program (DGP)**  
The Development Grants Program is a competitive small grants program, initiated in 2006, that provides opportunities for organizations that have limited or no experience managing direct USAID grants. DGP was designed to expand the number of direct partnerships and to build the capacity of organizations to better meet the needs of their constituents. Successful applicants receive awards for \$2 million or less to implement activities over a three-year period.

**Development Innovations Venture (DIV)**  
USAID launched Development Innovation Ventures (DIV) as a way of producing development outcomes more effectively and cost-efficiently while managing risk and obtaining leverage. Through DIV, USAID seeks to identify and rigorously test promising projects with the potential to significantly (rather than incrementally) improve development outcomes, and help replicate and scale projects that are proven successful. DIV expects its most successful investments will have an accelerated growth path to reach tens of millions of beneficiaries worldwide within 10 years.

**Food for Peace**  
USAID, through funding provided by Public Law 480, Title II, makes commodity donations to Cooperating Sponsors (Private Voluntary Organizations, Cooperatives, and International Organization Agencies) to address the needs of food security in both 5-year development projects and emergency food assistance programs. Food for Peace provides assistance primarily through three types of programs:

### **Additional Information on Eligibility:**

The Department of Veterans Affairs (VA) is announcing the availability of funds for assistance to rehabilitate currently operational Grant and Per Diem grantee facilities originally funded under VA's Homeless Providers Grant and Per Diem Program (see funding priorities in NOFA).

### **Agency Name**

Homeless Providers Grant and Per Diem Program

## **Description**

VA is pleased to issue this NOFA for VA's Homeless Providers Grant and Per Diem Program as a part of the effort to increase the useful life of the facilities of grantees previously funded under the program. By providing funding to rehabilitate these existing operational grantee facilities, VA expects current Grant and Per Diem grantees may rehabilitate their currently funded Grant and Per Diem project location in order to meet the safety, security, and privacy issues associated with the homeless Veteran populations they serve. VA expects awardees to complete the rehabilitation within 18 months of the award. This NOFA announces the availability of rehabilitation funds under VA's Homeless Providers Grant and Per Diem Program for current operational Grant and Per Diem grantees to rehabilitate their Grant and Per Diem facility. Only one application for funding per operational project number may be awarded. Applicants that have multiple grant projects located at the same facility need only to submit one application with all the affected projects numbers listed. Applicants that have multiple facilities under a single project number only need to submit one application for all of the affected facilities. For example, one project, at one building (facility) = one application. Multiple projects, at one building (facility) = one application. Multiple buildings (facilities), under one project number = one application. Potential applicants may contact the Grant and Per Diem Program Office to determine the number of applications needed. All potential grantees are advised should they be awarded and accept a capital rehabilitation grant under this NOFA; the real property rehabilitated may be subject to the real property disposition requirements of 38 CFR 49.32. Previously awarded grant projects that have not exceeded the maximum years of operation listed in 38 CFR 61.67 and Per Diem Only (PDO) Transition in Place projects are not eligible for this funding.

## **REMINDERS!**

### **The Small Business Innovative Research Program - SBIR Program**

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

### **SBIR Mission and Program Goals**

The mission of the SBIR program is to support scientific excellence and technological innovation through the investment of Federal research funds in critical American priorities to build a strong national economy.

The program's goals are four-fold:

- Stimulate technological innovation
- Meet Federal research and development needs.
- Foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons.
- Increase private-sector commercialization of innovations derived from Federal research and development funding.

### **SBIR-Participating Agencies**

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed \$100 million are required to allocate 2.5 percent of their R&D budget to these programs. Currently, eleven Federal agencies participate in the program:

- [Department of Agriculture](#)
- Department of Commerce - [National Institute of Standards and Technology](#)
- Department of Commerce - [National Oceanic and Atmospheric Administration](#)
- [Department of Defense](#)
- [Department of Education](#)
- [Department of Energy](#)
- [Department of Health and Human Services](#)

- [Department of Homeland Security](#)
- [Department of Transportation](#)
- [Environmental Protection Agency](#)
- [National Aeronautics and Space Administration](#)
- [National Science Foundation](#)

Each agency administers its own individual program within guidelines established by Congress. These agencies designate R&D topics in their solicitations and accept proposals from small businesses. Awards are made on a competitive basis after proposal evaluation.

### **Three-Phase Program**

The SBIR Program is structured in three phases:

*Phase I.* The objective of Phase I is to establish the technical merit, feasibility, and commercial potential of the proposed R/R&D efforts and to determine the quality of performance of the small business awardee organization prior to providing further Federal support in Phase II. SBIR Phase I awards normally do not exceed \$150,000 total costs for 6 months.

*Phase II.* The objective of Phase II is to continue the R/R&D efforts initiated in Phase I. Funding is based on the results achieved in Phase I and the scientific and technical merit and commercial potential of the project proposed in Phase II. Only Phase I awardees are eligible for a Phase II award. SBIR Phase II awards normally do not exceed \$1,000,000 total costs for 2 years.

*Phase III.* The objective of Phase III, where appropriate, is for the small business to pursue commercialization objectives resulting from the Phase I/II R/R&D activities. The SBIR program does not fund Phase III. Some Federal agencies, Phase III may involve follow-on non-SBIR funded R&D or production contracts for products, processes or services intended for use by the U.S. Government

### **Description**

The Secretary of Agriculture has a congressionally designated advisory council that assists the U.S. Forest Service in establishing the grant

categories and recommendations of final proposals for the Forest Service to consider. This is the National Urban and Community Forestry Advisory Council (Council). The National Urban and Community Forestry Advisory Council seeks innovative (new, cutting-edge or builds upon existing studies) grant proposals for program development, study, and collaboration that will address strategies in the Ten Year Action Plan. Specifically for this Request for Proposals, the Council is considering proposals to address the following priority issues: • Making Urban Trees and Forests More Resilient to the Impacts of Natural Disasters and the long-term Impacts of Climate Change • Green Infrastructure Jobs Analysis • Utilizing Green Infrastructure to Manage and Mitigate Stormwater to Improve Water Quality Organizations, local governments, tribal agencies, and partnerships are encouraged to submit proposals that will demonstrate the reach, resources, and expertise needed to address the three priority issues in ways that will lead to meaningful, replicable results across the country. Potential Innovation grantees are should work collaboratively with other organizations and entities not traditionally involved in urban and community forestry. Applicants should consider multi-year projects and other sources of funds, which may include other Federal cooperative conservation sources. While other Federal dollars or technical support may contribute to the project, they may not be used to match these Federal grant program dollars.

Pursuant to section 3 of the Public Works and Economic Development Act of 1965 (42 U.S.C. § 3122) (PWEDA) and EDA's regulation at 13 C.F.R. § 300.3, the following types of entities are eligible to receive funding assistance from EDA: 1. District Organizations (as defined in 13 C.F.R. § 300.3); 2. Indian Tribes or a consortium of Indian Tribes; 3. States, cities, or other political subdivisions of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions; 4. Institutions of higher education or a consortium of institutions of higher education; or 5. Public or private non-profit organizations or associations acting in cooperation with officials of a political subdivision of a State.

**Agency Name**

Economic Development Administration

**Description**

Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program also helps support planning

organizations, including District Organizations, Indian Tribes, and other eligible Recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

Regional Development

Category Explanation:

The Economic Development Administration's (EDA's) mission is to lead the Federal

economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide economy. EDA fulfills this mission through strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the Economic Development Assistance programs (EDAP) Federal Funding Opportunity (FFO) announcement, EDA will make construction, non-construction, and revolving loan fund investments under the Public Works and Economic Adjustment Assistance Programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

## Description

EDA provides strategic investments that foster job creation and attract private investment to support development in economically distressed areas of the United States. Under this FFO, EDA solicits applications from both rural and urban areas to provide investments that support construction, non-construction, technical assistance, and revolving loan fund projects under EDA's Public Works and Economic Adjustment Assistance programs. Grants made under these programs are designed to leverage existing regional assets to support the implementation of economic development strategies that advance new ideas and creative approaches to advance economic prosperity in distressed communities.

### **Additional Information on Eligibility:**

Eligible applicants may be institutions of higher education, nonprofits, commercial organizations, international or foreign organizations or governments, individuals, state, local and Indian tribal governments. Eligibility also depends on the statutory authority that permits NOAA to fund the proposed activity. Refer to the CFDA in order to determine an applicant's eligibility. If the applicant is a university that has a NOAA Joint or Cooperative Institute (CI), the institution is encouraged to submit an application that will be associated with the CI. The application must specify the name of the CI, its most recent award number, and the NOAA-approved research theme applicable to the work to be performed in the project narrative. The application will use the facilities and administrative rate (F&A or Indirect cost rate) associated with most recent CI award. If the application is selected for funding, NOAA will notify the university

that a separate competitive award will be issued with its own award number. However, the competitive award will include a Special Award Condition (SAC) that evidences the link between it and the CI award. The SAC will provide (1) that the university has submitted the proposal to be associated with the CI; (2) that any existing University/NOAA MOA will be incorporated by reference into the terms of the competitive award, and (3) that any progress report(s) for the competitive award must follow the timetable of and be submitted by the CI directly to the funding program. Copies of these progress reports will be attached to the CI's performance report as an appendix.

**Agency Name**

Department of Commerce

**Description**

The purpose of this notice is to request applications for special projects and programs associated with NOAA's strategic plan and mission goals, as well as to provide the general public with information and guidelines on how NOAA will select proposals and administer discretionary Federal assistance under this Broad Agency Announcement (BAA). This BAA is a mechanism to encourage research, education and outreach, innovative projects, or sponsorships that are not addressed through our competitive discretionary programs. It is not a mechanism for awarding congressionally directed funds or existing funded awards. Funding for potential projects in this notice is contingent upon the availability of Fiscal Year 2012, Fiscal Year 2013 and Fiscal Year 2014 appropriations. Applicants are hereby given notice that funds have not yet been appropriated for any potential activities in this notice. Publication of this announcement does not oblige NOAA to review an application, or to award any specific project, or to obligate any available funds.

The Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2014 competitions for grants to support education research and special education research. The Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding of developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and of education outcomes for all students from early childhood education through postsecondary and adult education. Purpose of Program: The central purpose of the Institute's research grant programs is to provide parents, educators, students, researchers, policymakers, and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need. The Institute's National Center for Education Research (NCER) will hold five competitions: One competition for education research, one competition for education research training, one competition for education research and development centers, one competition for statistical and research methodology in education, and one competition for partnerships and collaborations focused on problems of practice or policy. The Institute's National Center for Special Education Research (NCSER) will not hold competitions in FY 2014. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. The Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2014 competitions for grants to support education research and special education research. The Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding of developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and of education outcomes for all students from early childhood education through postsecondary and adult education. Purpose of Program: The central purpose of the Institute's research grant programs is to provide parents, educators, students, researchers, policymakers, and the general public with reliable and valid

information about education practices that support learning and improve academic achievement and access to education opportunities for all students. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need. The Institute's National Center for Education Research (NCER) will hold five competitions: One competition for education research, one competition for education research training, one competition for education research and development centers, one competition for statistical and research methodology in education, and one competition for partnerships and collaborations focused on problems of practice or policy. The Institute's National Center for Special Education Research (NCSER) will not hold competitions in FY 2014. Catalog of Federal Domestic Assistance (CFDA) Numbers: 84.305A, 84.305B, 84.305C, 84.305D, and 84.305H. Applications for grants under the Education Research, Education Research Training, Education Research and Development Centers, Statistical and Research Methodology in Education, and the Partnerships and Collaborations Focused on Problems of Practice or Policy competitions, CFDA Numbers 84.305A, 84.305B, 84.305C, 84.305D, and 84.305H must be submitted electronically using the Governmentwide Grants.gov Apply site at [www.Grants.gov](http://www.Grants.gov). Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us. You may access the electronic grant applications for the Education Research, Education Research Training, Education Research and Development Centers, Statistical and Research Methodology in Education, and the Partnerships and Collaborations Focused on Problems of Practice or Policy competitions at [www.Grants.gov](http://www.Grants.gov). **Description**

The purpose of this Amendment 001 is to modify Section I.C. to add the language, "TCES systems that utilize fuel cells are not of programmatic interest and will be considered noncompliant." The Concentrating Solar Power: Efficiently Leveraging Equilibrium Mechanisms for Engineering New Thermochemical Storage (CSP: ELEMENTS) Funding Opportunity Announcement (FOA) that is being issued by the U.S. Department of Energy (DOE) is seeking applications that integrate Thermochemical Energy Storage (TCES) systems with a minimum of 6 hours of thermal storage to be used in 1 Megawatt-electric (1 MWe) scale CSP electricity generation that have promise to achieve a cost target of \$15 per kilowatt-hour-thermal (\$15/kWhth) are the focus of this FOA. Successful projects will culminate in an on-sun demonstration of the thermochemical reactor along with reliable projections of the full scale performance of the integrated storage system through the utilization of validated performance models developed as part of the research and development effort.

All prime recipients and subrecipients receiving funding under this FOA must be incorporated (or otherwise formed) under the laws of a State or territory of the United States.

**Agency Name**

Golden Field Office

**Description**

The objective of this FOA is to develop and implement a variety of activities that deploy U.S. technical expertise in areas such as strategic and policy planning and analysis, energy market analysis, energy modeling, workforce development, and technical analysis to prime markets for increased use of energy efficient and renewable energy technologies in South Africa and Saudi Arabia. Benefits to the U.S. include potentially increased exports of domestic clean energy technologies and services in rapidly expanding markets, as well as access to data on clean energy policy and program successes and challenges that can inform U.S. national and subnational policy development. DOE anticipates providing two awards totaling \$900k (one \$450k award for activities in South Africa; one \$450k award for activities in Saudi Arabia). The awardees will implement these activities over a period of up to three years to accomplish the goals of this funding opportunity. This FOA directly supports the goals of the Department of Energy's (DOE) Office of Energy Efficiency and Renewable Energy (EERE), International. The full Funding Opportunity Announcement (FOA) is posted on the EERE Exchange website to be considered for award. The applicant must first register and create an account on the EERE Exchange website. A User Guide for EERE Exchange can be found on the EERE website <http://eere-exchange.energy.gov/Manuals.aspx> after logging in to the system. Information on where to submit questions regarding the content of the announcement and where to submit questions regarding submission of applications is found in the full FOA posted on the EERE Exchange website.

**Additional Information on Eligibility:**

**Agency Name**

Golden Field Office

**Description**

The purpose of this Notice is to provide potential applicants advance notice that the Wind and Water Power Technologies Office (WWPTO), on behalf of the DOE Office of Energy Efficiency and Renewable Energy (EERE), intends to issue a FOA titled Marine and Hydrokinetic (MHK) System Performance Advancement (SPA). The Notice of Intent is posted on the EERE eXCHANGE website at <https://eere-exchange.energy.gov>. NO APPLICATIONS WILL BE ACCEPTED THROUGH THIS NOTICE. Please do not submit questions or respond to this Notice of Intent. Prospective applicants to the FOA should begin developing partnerships, formulating ideas, and gathering data in anticipation of the issuance of this FOA. It is anticipated that this FOA will be posted to EERE Exchange in the second quarter of calendar year 2013. The applicant must first register and create an account on the EERE eXCHANGE website. A User Guide for the EERE eXCHANGE can be found on the EERE website <http://eere.energy.gov/financing/exchangeExchange/Manuals.aspx> after logging in to the system.

Federal agencies and instrumentalities (other than DOE) are not eligible to apply as a subrecipient or as a prime recipient. NOTE: NETL is not eligible to receive an award under this announcement and may not be proposed as a team member on another entity's application.

**Agency Name**

National Energy Technology Laboratory

**Description**

The intent of this Department of Energy, National Energy Technology Laboratory FOA is to select and award projects in FY13 that focus on improving the environmental performance of shale gas, tight oil, and tight gas resource development. This can be achieved by mitigating issues related to wellbore integrity and zonal isolation and by reducing water usage, air emissions, and resource degradation through better unconventional resource stimulation that appropriately matches technology to local geologic and hydrologic conditions. This announcement is a critical component of the DOE portfolio to advance the environmentally sound development of unconventional domestic natural gas and oil resources and it will support ongoing programmatic efforts to improve our understanding of the nature and impacts of unconventional resource development, develop improved technologies and engineering practices to ensure these resources are developed safely and with minimal environmental impact, and increase supply of U.S. oil and gas resources in order to enhance national energy security and further reduce energy imports.

### **Description**

This Funding Opportunity Announcement (FOA) encourages the translation of technologies for biomedical or behavioral research from academic and other non-small business research sectors to the marketplace. Small Business Concerns (SBCs) are encouraged to submit Small Business Innovation Research (SBIR) grant applications that propose to further develop, make more robust, and make more user-friendly such technologies in preparation for commercial dissemination. It is expected that this activity will require partnerships and close collaboration between the original developers of these technologies and SBCs, which may be accomplished in any of a number of ways, including the use of multiple principle investigators.

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

### **Additional Information on Eligibility:**

Applicants must have a demonstrated knowledge and understanding of the biology of the involved endangered or threatened species in the United States and their ecosystem, including preferably having worked with the

species in the field and holding a currently valid Endangered Species Act permit, issued by the FWS, authorizing them to work with these species (or that have previously held a permit to do so). If funding is awarded, applicants that do not currently hold a valid permit for the proposed activity may need to apply for and obtain a permit (<http://www.fws.gov/endangered/permits/index.html>) before beginning the proposed activity. FWS Regional (or Field Office) contacts will discuss potential proposals with interested parties if needed, and review eligible applications. The FWS Regional Office will refer interested parties to the appropriate FWS Field Office for further consideration as appropriate. For potential proposals submitted directly to the Field Office, the Field Office will conduct the proposal review and selection process. A list of FWS Regional Office contacts is available in the Full Announcement under section VII. Agency Contacts.

**Agency Name**

Fish and Wildlife Service

**Description**

The FWS Endangered Species Program provides Federal financial assistance on a competitive basis to States, other Federal agencies, landowners, educators, non-profit organizations, researchers, and other partners to secure information about endangered, threatened or candidate species, to aid in the recovery of these species, to avert listing of species pursuant to the Endangered Species Act, and to help conserve the ecosystems upon which these species depend. The FWS and National Marine Fisheries Service (NMFS), which is part of the Department of Commerce's NOAA Fisheries office, share Endangered Species Act responsibilities for several species such as sea turtles. We have responsibility for sea turtles when they are on land, and NMFS has responsibility for sea turtles when they are in the water. Projects for NMFS-managed species are not included in this funding opportunity. This Recovery Implementation funding opportunity is intended for projects that will contribute to the recovery of FWS-managed endangered and threatened species in the United States, and is limited to projects carrying out actions described in a species's approved recovery plan, in the implementation schedule of a species's approved recovery plan, actions recommended in a completed 5-year status review of the species or in a spotlight species action plan, or projects documenting species's response to climate change. For example: securing scientific information about endangered or threatened species, implementing restoration actions that will lead to delisting of a species, help prevent extinction of a species, or aid in the recovery of a species. Projects that address species response to climate change will receive additional consideration.

**Description**

The Coastal Program is a voluntary, incentive-based program that provides technical and financial assistance to coastal communities and landowners to restore and protect fish and wildlife habitat on public and private lands. The Coastal Program is not a conventional grants program, in that it does not solicit projects through a request for proposals. Instead, projects are developed strategically, in coordination with partners, and with substantial involvement from Service field biologists. If you are interested in working with the Coastal Program, please visit our website to find the nearest Coastal Program office.

**Description**

The Partners for Fish and Wildlife Program is a voluntary, incentive-based program that provides technical and financial assistance to private landowners to restore and conserve fish and wildlife habitat. The Partners for Fish and Wildlife Program is not a traditional grants program, it is a direct federal assistance program. The Partners for Fish and Wildlife Program does not solicit projects through a request for proposals. Instead, projects are developed in collaboration and with substantial involvement from Partners for Fish and Wildlife field biologists. The Partners for Fish and Wildlife Program is delivered through more than 250 full-time staff, active in all 50 States and territories, who work directly with landowners to plan and implement projects based on priorities and geographic focus areas identified in regional strategic plans. If you would like more information on the Partners for Fish and Wildlife Program please visit <http://www.fws.gov/partners/> To find out who to contact for more information or opportunities in your area please visit <http://www.fws.gov/partners/contactUs.html>

**Description**

The U.S. Fish and Wildlife Service (Service) Fisheries Program's National Fish Passage Program is a voluntary, non-regulatory conservation assistance program that provides financial and technical assistance to remove or bypass artificial barriers that impede the movement of fish and other aquatic species and contribute to their decline. The National Fish Passage Program received \$11.0 million of operational funds to implement the program in Fiscal Years 2011. The Service will implement fish passage improvement-based, cost-shared projects to protect, restore, or enhance habitats that support fish and other aquatic species and their populations. All or a portion of project funds may be transferred to partner organizations through cooperative agreements if the Service lacks the capability to implement a project. To determine eligibility of a specific project contact the REGIONAL COORDINATOR in your area. A list of Coordinators and their responsible geographical areas is attached to this announcement under the APPLICATION INSTRUCTIONS.

Grantees who have current Second Chance Act Reentry Demonstration grants may apply only if their current grant ends prior to October 1, 2013.

**Agency Name**

Bureau of Justice Assistance

**Description**

The Second Chance Act of 2007 (Pub. L. 110-199) seeks a comprehensive response to the increasing number of incarcerated adults and juveniles who are released from prison, jail, and juvenile residential facilities and return to their communities. There are currently over 2.2 million individuals serving time in our federal and state prisons and millions of people cycling through local jails every year. Ninety-five percent of all offenders incarcerated today will eventually be released and will return to communities. The coordination of reentry services for members of Native American tribes is even more complex given that they are released from federal, Bureau of Indian Affairs (BIA), state, local, and tribal facilities. Programs funded under the Second Chance Act help ensure that the transition individuals make from prison and jail to the community is successful and promotes public safety. Section 101 of the Second Chance Act authorizes federal awards to state and local governments and federally recognized Indian tribes that may be used for demonstration projects to promote the safe and successful reintegration into the community of individuals who have been incarcerated or detained. Funding from BJA is authorized under the Consolidated and Further Continuing Appropriations Act, 2013, Pub. L. 113-6, 127 Stat. 198, 253.

National Endowment for the Humanities

**Description**

The Humanities Collections and Reference Resources (HCRR) program supports projects that provide an essential underpinning for scholarship, education, and public programming in the humanities. Thousands of libraries, archives, museums, and historical organizations across the country maintain important collections of books and manuscripts, photographs, sound recordings and moving images, archaeological and ethnographic artifacts, art and material culture, and digital objects. Funding from this program strengthens efforts to extend the life of such materials and make their intellectual content widely accessible, often through the use of digital technology. Awards are also made to create various reference resources that facilitate use of cultural materials, from works that provide basic information quickly to tools that synthesize and codify knowledge of a subject for in-depth investigation. HCRR offers two kinds of awards: 1) for implementation and 2) for planning, assessment, and pilot efforts (HCRR Foundations grants).

**Agency Name**

National Endowment for the Humanities

**Description**

NEH Bridging Cultures at Community Colleges grants are intended to strengthen and enrich humanities education and scholarship at community colleges or community college systems. These projects must be planned and implemented in collaboration with another institution with appropriate resources, such as a college or university, museum, research library, or professional association. Grants may be used to enhance the humanities content of existing programs, develop new programs, or lay the foundation for more extensive endeavors in the future. NEH Bridging Cultures at Community Colleges grants • create opportunities for community college faculty members to study together while improving their capacity to teach the humanities; • enhance or develop areas of need in an institution's humanities programs; and • give community college faculty access to humanities resources through partnerships with other institutions with appropriate resources. Projects must focus on the theme of Bridging Cultures. This agency-wide initiative encourages exploration of the ways in which cultures from around the globe, as well as the myriad subcultures within America's borders, have influenced American society. With the aim of revitalizing intellectual and civic life through the humanities, NEH welcomes proposals that enhance understanding of diverse countries, peoples, and cultural and intellectual traditions worldwide. Applications might also investigate how Americans have approached and attempted to surmount seemingly unbridgeable cultural divides, or examine the ideals of civility and civic discourse that have informed this quest. In connection with a focus on civic discourse, projects might explore the role of women in America's civic life as well as the civic role of women in other cultures and regions of the world. Projects must draw on sound humanities scholarship related to the theme of Bridging Cultures, engage participating faculty in shared readings of important humanities texts, involve humanities scholars with appropriate expertise, improve the quality of humanities course offerings at a community college or community college system, and widely disseminate their results.

**Description**

The Bridging Cultures through Film: International Topics program supports documentary films that examine international and transnational themes in the humanities. These projects are meant to spark Americans' engagement with the broader world by exploring countries and cultures outside of the United States. Proposed documentaries must be analytical and deeply grounded in humanities scholarship. The Division of Public Programs encourages innovative nonfiction storytelling that presents multiple points of view in creative formats. The proposed film should range in length from thirty minutes to a feature-length documentary. We invite a wide range of approaches to international and transnational topics and themes, such as • an examination of a critical issue in ethics, religion, literature, or history, viewed through an international lens; • an exploration of a topic that transcends a single nation-state; • a biography of a foreign leader, writer, artist, or historical figure; or • an exploration of the history and culture(s) of a specific region, country, or community outside of the United States.

Socially and economically disadvantaged small business concerns and women-owned small business concerns are particularly encouraged to participate. For an SBIR Phase I Proposal, a minimum of two-thirds of the research, as measured by the budget, must be performed by the small business concern and the balance may be outsourced to a consultant or subcontractor or a combination of the two. Proposals from joint ventures and partnerships are permitted, provided the entity created qualifies as a small business concern(see [Size Determination](http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=79b80c770d80d139e4ad800fb1eff912&n=13y1.0.1.1.17&r=PART&ty=HTML#13:1.0.1.1.17.1.273 "Size Determination") for more information). Proposing firms are also encouraged to take advantage of research expertise and facilities that may be available to them at colleges, universities, national laboratories, and from other research providers. Such collaborations may include research subcontracts, consulting agreements or the employment of faculty as senior personnel and of graduate or undergraduate students as assistants by the small business. <br /> \*PI Limit: The primary employment of the Principal Investigator (PI) must be with the small business concern at the time of the award. A PI must spend a minimum of one calendar month on an SBIR Phase I project. Primary employment is defined as 51% employed by the small business. NSF considers a full timework week to be normally 40 hours and considers employment elsewhere of greater than 19.6 hours to be in conflict with this requirement.

### **Description**

The Small Business Innovation Research (SBIR) Program stimulates technological innovation in the private sector by strengthening the role of

small business concerns in meeting Federal research and development needs, increasing the commercial application of federally supported research results, and fostering and encouraging participation by socially and economically disadvantaged and women-owned small businesses. The SBIR program solicits proposals from the small business sector consistent with NSF's mission. The program is governed by Public Law 112-81 (SBIR/STTR Reauthorization Act of 2011). A main purpose of the legislation is to stimulate technological innovation and increase private sector commercialization. The NSF SBIR program is therefore in a unique position to meet both the goals of NSF and the purpose of the SBIR legislation by transforming scientific discovery into both social and economic benefit, and by emphasizing private sector commercialization. Accordingly, NSF has formulated broad solicitation topics for SBIR that conform to the high-technology investment sector's interests. The topics are: Biological and Chemical Technologies (BC) Education Applications (EA) Electronics, Information and Communication Technologies (EI) Nanotechnology, Advanced Materials, and Manufacturing (NM) Note: The submission of the same project idea to both this SBIR Phase I solicitation and the concurrent STTR Phase I solicitation is strongly discouraged.

### **Description**

The Small Business Technology Transfer (STTR) program stimulates technological innovation in the private sector by strengthening the role of small business concerns in meeting Federal research and development needs, increasing the commercial application of federally supported research results, and fostering and encouraging participation by socially and economically disadvantaged and women-owned small businesses. The STTR Program requires researchers at universities and other non-profit research institutions to play a significant intellectual role in the conduct of each STTR project. These researchers, by joining forces with a small company, can spin-off their commercially promising ideas while they remain primarily employed at the research institution. The program is governed by Public Law 112-81 (SBIR/STTR Reauthorization Act of 2011). This STTR Phase I solicitation aims at encouraging the commercialization of previously NSF-funded fundamental research (NSF funding lineage). It is highly desirable that the core innovation described in the submitted proposals can in some manner be linked to fundamental research funded by the NSF. This lineage must be documented in the Project Description section of the proposal. (See Proposal Preparation Instructions for more information.) Please note: It is NOT required that investigators of the original NSF-funded fundamental research be directly affiliated with the proposed STTR project or personnel. The proposals submitted should fall into one of the four broad topic areas: Biological and

Chemical Technologies (BC) Education Applications (EA) Electronics,  
Information and Communication Technologies (EI) Nanotechnology,  
Advanced Materials, and Manufacturing (NM) Please Note: The  
submission of the same project idea to both this STTR Phase I solicitation  
and the concurrent SBIR Phase I solicitation is strongly discouraged.
